4 3/4"	38		2.50
5 1/4"	40		2.82

NOTES:

1) If the coating is nylon then the weight of each diam. FC or IWRC is increased respectively due to the difference between polypropylene and nylon.

2) All weights have a tolerance of +/- 3%.

3) If other construction than 6X8 is required it can be manufactured on special order for lengths over 1.200 mtrs each diameter.
